Subject: WQS briefing for the administrator

Hi, Jared - I wanted to let you know that we're planning to do a briefing for Gina next Monday on the range of water quality standards that we expect to promulgate in 2016, so she has a little context and these don't take her by surprise as they come up. Since the CA Bay Delta Se standards are mentioned in the briefing, I've asked OW folks to loop your folks in - both to make sure that your folks get invited to the briefing, and to give them an opportunity to comment on the deck in advance. Apologies for not reaching out earlier - we were expecting it to take a bit longer to get on her schedule than it did. Let me know if you have any concerns.

Following up on our call, I have folks working on setting up a meeting with you, Tomas, Alexis et al to walk through the organigram and 2016 priorities - hopefully in January. I'm also working on setting up a forum for us to talk drought - hopefully with R6 and R8, as well, if we can figure out a forum that makes sense. I'll make sure Roger gets connected with you and Tomas through his R9 supervisor in LA (can't remember that person's name right now).

I've also asked Crystal to try to get 15 minutes on your calendar this week to talk about Rosemont and Cargill. Hope all's well with you.

Joel
